REGULATIONS

1. The host school will prohibit the use of loud noisemakers such as cowbells, air horns, megaphones, and musical instruments. The tournament director will forbid noisemakers during tournament play. SIGNS (with the exception of welcome signs) WILL NOT BE PERMITTED IN POST SEASON.
2. When tri-matches are played, the two visiting teams should play first (the home team should be ready to play at match time in the event one of the scheduled teams is not present and ready to play). The loser then plays the home team and the winner of the first match will play the home team in the final match. Exceptions are allowed for travel time purposes. (It may be helpful for the team with the furthest travel to play in the first two matches).
3. In single matches and in the first match of a tri-match, teams will be given six minutes separately on the court to warm-up. The team designated as the home team will have the first warm-up period. In the second and third matches of a tri-match, teams having already played will be given 3 minutes (3-3) separately to warm-up. The team having just played in the previous match will warm-up second and their opponent will warm-up first.
4. During regular season and tournament play, a team that has not arrived at the playing site and ready to play at the scheduled time will forfeit its initial set. If the team has not arrived within 30 minutes after the scheduled starting time, the match will be forfeited. For 3 out of 5 matches, wait an additional 15 minutes.
5. During the season when rescheduling occurs and teams are added or dropped, notify your district director as well as the other team(s) involved. Refer to page 77 in Rules and Regulation's section of the SCHSL handbook.
6. Teams are required to wear their regular jersey starting at the call of the captains/coaches meeting.
7. Each team shall be responsible for providing and training at least one line judge for each match played. It is strongly recommended that adults be used. If players are used, they may not be dressed in their team uniform. Both schools will provide a line judge. If the visiting team does not have a line judge, they forfeit their right and the home school will provide a second line judge.
8. All matches must start on time based on the listing time in Arbiter. This is very important as far as the public and game officials are concerned. Officials are not expected to help set up the court.
9. Officials who do not report to the match site at least thirty minutes before starting time should be reported in writing to the South Carolina High School League Office and your director.
10. A 3 OUT OF 5 MATCH MAY ONLY BE PLAYED WHEN ONLY TWO SCHOOLS ARE INVOLVED IN A SINGLE MATCH.
11. So that the official can hear the contact of the serve and in order to detect overlapping, there should be no noise by team personnel during the serve. To promote sportsmanship fans are expected to follow the same protocol.

RESPONSIBILITIES OF OFFICIALS

Officials are reminded to:

1. Keep a current and correct preferred mailing address and home, business and cell phone numbers on file in the Arbiter. (www.arbitersports.com)
2. Check and update Arbiter daily.
3. During the volleyball season, an official must report any irregular procedure of the match or any unusual conduct on the part of the crowd, players, school officials or students to their director and the South Carolina High School League Office. This includes instances such as a team walking off the court and refusing to play, disqualifications (players and coaches), other unsportsmanlike acts, inadequate court markings, etc.
4. Leave the volleyball court at the completion of the match.

LINE JUDGES

Good line judges are essential for a volleyball match. Poor line judges put both teams at a disadvantage. **It is the school's responsibility to select, instruct and train line judges.** Well in advance of the beginning of the volleyball season, school personnel should recruit and select line judges (**preferably adults**) who are willing to volunteer their time and services. Paying line judges will not solve the problem of the need for better line judges. Proper instruction and training will! The line judge must be able to ignore spectator criticism and maintain complete concentration on the game.

It is impossible for the R1 to instruct and train line judges in the short time allotted just prior to a match. Time permits only a brief, general review of their duties and responsibilities.

Coaches should communicate to players and fans the fact that line judges are assistant officials. They **assist** the R1 but do not make decisions. As the head official, the R1 makes all decisions. The R1 merely considers the calls made by the line judges. The R1 may overrule a line judge's call at any time. **It is highly required that line judges use red flags.**

Characteristics of a Good Line Judge:

1. Reports to the R1 no less than 20 minutes before the scheduled starting time of the match.
2. Reports promptly to the prematch meeting with the officials.
3. Is properly instructed and trained in all duties and responsibilities.
4. Performs duties in a confident, quiet, efficient manner.
5. Is appropriately dressed.
6. Is always courteous to other line judges, officials, coaches and players.
7. Is cooperative and responds in a positive manner to suggestions and directions from the R1.
8. Remains aloof from players and spectators during the match.
9. Refrains from reacting as a spectator to anything that occurs during the match.
10. Makes objective calls that are both quick and decisive, using the correct signals.
11. Concentrates on duties and responsibilities without distraction from other people.
12. Is always alert and ready to move quickly into the best position to make a call without interfering with play.
13. Shows respect for the calls of other line judges.
14. Shows respect for and accepts, without question, all decisions of the R1.

General Guidelines:

1. Line judges are assigned their positions by the R1.
2. Line judges shall hold these same positions relative to the court throughout the match.
3. Line judges are to make calls for balls landing on or near the sideline and end line closest to them prior to retrieving the ball.
4. In general, a line judge should be in a position near the intersection of the sideline and the end line.
5. Line judges **MUST MOVE** to be in the best position for an unobstructed view to make the call.
6. Line judges never enter the playing area.
7. Line judges must be alert to avoid being struck by the ball or interfering with a player's opportunity to make a play.

Specific Duties (Rule 5) - Line judges shall:

1. Determine at the moment of contact for the serve whether the server touches the end line or the floor outside the lines marking the width of the serving area.
2. Indicate when the serve, or any played ball, crosses the net not entirely between the net antennas.
3. Indicate when the ball touches the net and/or net supports not entirely between the net antennas.
4. Indicate whether a ball is in bounds or out-of-bounds when it lands near any line for which the line judge is responsible.
5. Indicate when a player touches a ball that is going out-of-bounds on the player's side of the net.

2022-23 VOLLEYBALL MAJOR RULES CHANGES

43-1-3 PENALTY, 4-2 PENALTY 3 The penalties addressed in Rules 3-1-3 and 4-2 require officials to notify the state association when the administration of the contest is compromised due to insufficient padding or the inability to legally uniform six players for competition. This change adds language allowing state associations to determine the appropriate action/penalty(s), if necessary, to address issues such as padding requirements and illegal team uniforms.

4-1-6a Allowing hair adornments such as, but not limited to, hair beads, creates inclusivity of hair styles while maintaining that the risk to the athlete, teammates and opponents should not be compromised. Hair adornments must be securely fastened and not present a safety hazard. The change also eliminated the length restriction of 2 inches for bobby pins, flat clips and flat barrettes.

4-2-1f Many times student-athletes are responsible for supplying the uniform bottom. Securing bottoms without manufacturer logos/trademark/references along the waistband has become increasingly difficult. This change maintains that uniform bottoms are still subject to manufacturer logo restrictions but eliminates the manufacturer logo/trademark/reference restrictions on the waistband ONLY of the uniform bottom allowing for multiple references without size restrictions.

5-6-3b, e; 5-7-3e Scorers and libero trackers have varying degrees of experience in their roles. While experienced scorers and libero trackers might easily and correctly identify an improper server or an illegal replacement, a novice in either role might not. This change eliminates the interruption of the match by sounding the audio device and establishes that the official scorer/libero tracker shall notify the second referee during the first dead ball.

7-1-2c (NEW) The head coach is now required to indicate the playing captain with a "C" next to the player's number on the lineup aligning language with the Case Book and Officials Manual.

10-2-1a, 11-2-1 Time-out requests by the head coach or playing captain may be signaled or verbalized. This change allows for a verbal signal to be recognized when hand signals are not seen.

12-2-5a Assistant coaches may stand during a dead ball situation and ask the second referee to review the accuracy of the score, verify the number of timeouts used, request the serving order of their team, verify the proper server for the opponent and, added this year, verify substitutions used by their team. This administrative communication aligns with the previously allowed communication between the assistant coach with the second referee.
